COAL STRIKE PROBLEM

ANOTHER CONFERENCE OVER
THE SITUATION HELD AT
THE WHITE HOUSE.

GIVE OUT NO STATEMENT

President Roosevelt, Four Cabinet Officers and Labor Commissioner Wright Discuss Means to Expedite a Resumption of Work—Rumors Current That the Chief Executive Will Appeal to the Miners.

Washington, Oct. 6.—In an earnest effort to expedite the adjustment of the coal strike problem another conference over the situation was held at the White House during the day and adjourned after three hours of deliberation. No statement was given out as to the conclusions reached and every participant absolutely refused to discuss what had taken place during the meeting. The conference was called in view of the extraordinary importance to the American people of a speedy solution of the question.

Besides the president, there were present at the conference Secretary of War Root, Secretary of the Navy Moody, Attorney General Knox, Postmaster General Payne and Carroll D. Wright, United States commissioner of labor. The last named was summoned to attend the conference on account of his expert knowledge of the situation in the anthracite coal fields and because of his personal investigation of the conditions there, which he made some months ago at the instance of the president. It was notable that only four of the members of the cabinet were present. This, however, was significant only of the fact that three of these four members were lawyers and that the issue involved was one which called for the deliberation of trained legal minds. The fourth, Postmaster General Payne, had taken a prominent part in the conference over the coal situation, which led up to the conference of operators and miners' representatives on Friday, besides he has taken great interest in matters which are identified with the present situation.

The fact that Mr. Payne has also been one of the closest advisers for many years in the national councils of his party likewise is important in connection with the personnel of the conference. It began shortly after 10 o'clock a. m., the time fixed by the president. When those who were to participate arrived at the White House

In a Drizzling Rain

they found Surgeon General Rixey of the navy and Dr. Lung, the president's physician, already there making the morning call on the distinguished patient. This caused a delay of a few minutes. When the two physicians left it was reported that the president's condition was progressing satisfactorily and that there were no untoward developments. The president, in expressing his views at the outset of the conference, talked earnestly and showed a deep feeling. His voice at times could be heard down stairs. Several times during the conference Secretary Cortelyou was summoned into the room and directed to prepare certain matters for consideration of the president and his advisers. This was taken to indicate that some action of one nature or another was about to be consummated. When the conference adjourned a few minutes before 1 o'clock all those who had joined in it declined to talk. Every member of the cabinet and Colonel Wright, the only outsider who was present, was pledged to the president to absolute secrecy as to what had occurred within the conference room. The utmost efforts were made to guard against publicity. Even the presidential summons to the conference had been made in a very carefully guarded way. Not since the Spanish war has there been such reticence shown at a conference of this character as was shown during the day. In this state of absolute reticence it is almost impossible to do more than draw the most general of conclusions as to the nature of the proceedings based upon what preceded them.

The known facts are that the president has reached the conclusion that he has nothing to expect save refusal from a further appeal to coal presidents and therefore has decided to look for relief of the situation from the miners' side. He feels that he can hardly expect them to make the sacrifice of all of their contentions without holding out at least a promise of some return and the question before him is as to his ability to do this. He can pledge himself

To Appeal to Congress

to examine into the justice of the miners' complaints and remedy them so far as lies in the power of the legislative branch, backed by the earnest good will of the executive. Also he can suggest to Governor Stone of Pennsylvania that he cause the Pennsylvania legislature likewise to make an inquiry, perhaps hasten the usual methods by calling an extra session. But those pledges would be given only on condition that the men go at once into the mines and get out with all speed the coal for which the people are suffering.

To adopt this course means the continuance of the policy of exerting

moral suasion to end the strike. It is certain that thus far the president has not found a single one of his constitutional advisers who could suggest any departure from this policy, no one could find a method sanctioned by law or Constitution which promised relief and involved the use of duress against either the operators or the miners.

So it is believed that the day's conference was called by the president with the purpose of putting in exact shape the details of a plan conceived in its rough outlines even before the departure of President Mitchell last

Friday from the mixed conference. The three hours spent in consultation during the day were none too long to put into form the twin propositions—one to the miners' organization and the other to Governor Stone, and the fact that Secretary Cortelyou was called on to prepare one or more statements at the direction of the president is taken as an indication that messages were sent out at the end of the conference and that the reticence of all of the parties is explainable perhaps by their desire to avoid the discourtesy of publishing the nature of these before they are received by the persons to whom they are addressed, as well as by a wish to escape the complications furnished by heated public discussion at this stage. That the parties to the conference feel that they have accomplished something was made evident by the expressed belief of one of the conferees that the miners would soon be again at work.

Many Propositions Considered.

One object of the conference was to consider some of the propositions that have been sent to the president for settling the strike. These came from every section of the country and a large proportion from men of standing and reputation. At the same time it is said that the suggestions often are absurd and impracticable. Others, offering a possible solution, already have received attention.

Two constantly recurring propositions for federal interference, one that United States troops be sent into Pennsylvania for the protection of the men the operators employ, and the other that the mines be seized by the general government, are rejected no matter by whom urged. The first conference developed the fact that no federal interference by force was possible and to that conclusion the president has firmly held. Some of the impracticable propositions made are offers to lease coal mines in other sections of the country to the government so that it may furnish coal to the people.

TO VICTORIA AND VANCOUVER.

Great Northern Secures a Railway to the Canadian Cities.

Victoria, B. C., Oct. 6.—A. Guthrie of St. Paul, a contractor of the Great Northern railway, John Henry and J. J. Jaffey of Vancouver, have bought the Victoria Terminal railway and its franchises, which, it is understood, will give the Great Northern railway an entrance to Victoria and Vancouver. The sale embraces a controlling interest in the Victoria Terminal and the Delta extension, which runs seventeen miles from the mouth of the Fraser river to Cloverdale. The purchasers take over the property as a going concern. The sale does not include the interest of the Sydney and Nanaimo Navigation company, operating the steamers Strathcona, Iroquois and Uman, which are owned by V. E. Bodwell. The new owners have not yet formulated any plan of action for the near future and it will be a matter for consideration whether they will proceed at once with the building of a mainland connection with Westminster or await the arrival of spring to begin the work.

MINNESOTA BANKS PROSPER.

National Financial Institutions Have a Successful Year.

Washington, Oct. 6.—In September a year ago the eighty-nine national banks then in existence in Minnesota held individual deposits aggregating \$28,719,192. Under the law fixing the minimum capital of national banks at \$25,000, which was introduced by Senator Nelson, the number of banks in the state has increased to 119 and individual deposits have grown to a total of \$36,426,098. These figures are contained in the report on the condition of the national banks of Minnesota, exclusive of the Twin Cities, at the close of business Sept. 15. This statement, compared with the one of the corresponding month a year ago, shows that the banks have had a prosperous year.

CANNOT REVIEW THE PARADE.

President Roosevelt Unable to See the Civil War Veterans March.

Washington, Oct. 6.—President Roosevelt will not review the parade of the G. A. R., at which it was expected he would occupy the reviewing stand in front of the White House. The official statement issued Saturday night that he would have to exercise extreme care indicated that it would be impossible for him to review the veterans and the direct statement that he will not do so was made on an official authority during the day. The president has not yet been able to rest his foot on the floor and his physicians have forbidden him again to overtax his strength as he did the past week.

Two Laborers Killed by a Train.

Houghton, Mich., Oct. 6.—While walking along the Copper Range tracks near the Baltic mine, six miles southwest of Houghton, two men were struck by a passenger train. Both were killed. Papers found on their persons identified them as John H. Miller and John Haischer. They were apparently laborers.

MORMONS IN SESSION

SEVENTY-SECOND SEMI-ANNUAL
CONFERENCE MEETS IN
SALT LAKE CITY.

PRESIDENT RICH SPEAKS

Emphatically Refutes the Statements

Published in the East That the
Murder of Mrs. Pulitzer at New
York Was Due to the Church's Doc-
trine of Blood Atonement—Scores
Hooper Young.

Salt Lake City, Oct. 6.—The seventy-second semi-annual conference of the Church of Latter Day Saints is in session here and the officials are refuting in the most emphatic language the published statements that the murder of Mrs. Pulitzer at New York, alleged to have been committed by Hooper Young, was due to the Mormon doctrine of blood atonement.

President Ben E. Rich of the Central States Mission of the Mormon church, who has just returned from the East, said:

"The murder is magnified every day in the newspapers. They try to bring the blame for the crime upon the church. They say in flaming headlines that this murder resulted from the doctrines of the Mormon church. They say the Mormons believe in blood atonement. So do all Christian nations; they believe or pretend to believe in the atoning blood of Christ for sin. They say the Mormons believe in another kind of blood atonement. Well, we do to the same extent that every state in the nation believes in it—that a man who sheds another man's blood shall have his own blood spilled by the law.

"This we believe and nothing more. We do not believe in strangling the criminal or executing him in the electric chair, but we believe that 'He who spills man's blood, by man shall his blood be spilled,' and, thank God, there were enough in the constitutional convention of this state who realizing this meaning of this to give the murderer the choice of being hanged or having his blood spilled by shooting if he had any regard for the teaching of God left in him."

Mr. Rich then read a signed statement made by the presidency of the church in 1889 in which they denied that any apostates had been killed or that the church advocated or permitted any such teachings and in which they denounced murder as the most heinous of all crimes.

Continuing, Mr. Rich said:
"Some years ago the minister of a church in this city murdered two girls, carved them to pieces and burned their bodies in a furnace. Did the Mormons say he was following the doctrines of his church? No, they knew that if he had been following the teachings of his church he would never have done such a thing. And if Hooper Young had been following the teachings of the Mormon church he would have been out in the streets telling the wicked of their sins instead of languishing in jail as he now is."

WISCONSIN AT ST. LOUIS FAIR.

Plans for Educational Exhibit Twice as Large as the One at Chicago.

St. Louis, Oct. 6.—Plans of the Wisconsin Teachers' association provide for an educational exhibit costing \$11,000, and occupying twice the

amount of space used for the same purpose at Chicago. The exhibit will be divided into eight groups, the different schools being elementary education, secondary education, higher education, special education in fine arts, special education in commerce and industry, education of defects, and special form of education bringing into use text books, school furniture and school appliances. Touching upon the space to be needed the report says:

"Taking into consideration the fact that the state has undergone a marvelous growth in ten years and that, therefore, its exhibits will be proportionately larger, it is only reasonable to assume that increased space will be required. Coupled with these conditions must be considered the further fact that the great prominence given to the educational interests at the St. Louis world's fair will prompt the various states to double their efforts in making most complete and comprehensive exhibits. Thus taking into account every phase of the situation we recommend the acquisition of space for the various interests as follows:

"University, 500 square feet; normal schools, 800 square feet; private and denominational colleges, 600 square feet; collective public schools, 2,600 square feet; private schools, 500 square feet, making a total of 5,900 square feet."

DROWNED IN A BATHTUB.

Peculiar Accident to a Woman at Peoria, Ill.

Peoria, Ill., Oct. 6.—Mrs. Frank B. Townsend was drowned in a bathtub at her home during the day. Her husband was preparing the bath for her. In an effort to heat the room he disconnected the pipe which carried off the poisonous gas from an instantaneous heater. In a few moments he was overcome by the fumes and fell to the floor. His wife rushed to his assistance and she, too, was overcome. She fell into the bathtub, which was partly filled with water, and was drowned. A servant discovered them a few minutes later. Physicians were summoned and they say Mr. Townsend will recover. They came here recently from Marshalltown, Ia.

Dr. Parker Suffers a Relapse.

London, Oct. 6.—Dr. Joseph Parker, pastor of the City Temple, who was seriously ill last spring, but was reported to have recovered, has experienced a sudden relapse and was unable to preach Sunday.

MONTANA RAILROAD WRECK.

Burlington and Northern Pacific Trains Collide.

Helena, Oct. 6.—A Burlington west-bound train and the Northern Pacific eastbound express met in a head-on collision between Columbus and Park City, Mont., on a curve on the Northern Pacific track. Two men were killed and seven injured, one fatally. The engines and mail cars were wrecked.

Girl Suicides With Strychnine.

Chicago, Oct. 6.—Miss Nellie Rooney, formerly of Louisville, Ky., committed suicide by swallowing strychnine in her room at 2129 Wabash avenue. Daniel Martin of Louisville had called to ask the girl to return home.

TELEGRAPHIC BREVITIES.

Carl C. Moeller, one of the oldest members of the Chicago board of trade, is dead, aged 63.

Brigands have captured a Turkish landowner named Sheik Bey, at Orisar, near Voden, forty miles from Monastir. He is being held for a ransom of \$15,000.

The failure of the great metallurgical works at Kertsh for \$9,000,000 has caused a flutter on the Russian stock markets, and has resulted in making idle 5,000 men.

MR. ROSING'S ANCESTRY.

The Alexander Post-News has the following interesting article in regard to the campaign being made by the democratic candidate for governor: Mr. Rosing is making his entire campaign for the governorship on his nationality. He has had a large edition of a Swedish Chicago paper issued for circulation in this state. It contains a column article which appeals to the Swedish-Americans to vote for Mr. Rosing merely because he was born in Sweden. This article has been reprinted in circular form and is being mailed by tens of thousands to Minnesota voters. The biographical sketch of Mr. Rosing sent out from his headquarters to the newspapers says he was born in Sweden and that his grandfather was a Swede, that back of that somewhere his ancestors were Germans. At first thought it might be concluded that he must be ashamed of his immediate Scandinavian ancestry, that he is so eager to get away from it and go back over four generations to prove that he is not really a Swede but a German. But the real motive is shown in another article published in a Chicago German paper and also widely circulated. In it his German ancestry is dilated upon and the fact that for some reason they were forced to leave their beloved Germany and go to Sweden. The taste left in the mouth by this article is that Mr. Rosing is really more German than Swede, and that he should not be blamed for the Swedish blood that came by immigration to that county. As the German expresses it, "while he looks like a Swede, he thinks like a German." In his personal campaign Mr. Rosing is a Swede with Swedes and a German with Germans. Evidently he is not proud enough of either ancestry to stand wholly by it, and thinks that by ignoring the Swedish blood when with Germans, and the German blood when with Swedes, that he will get the votes of both. Recently in the first ward of St. Paul he tried this double horse act and after he had talked with a Swede and a German they met and each claimed him as his countryman and was ready to prove it by Mr. Rosing himself. Discussion disclosed the trick he had played on them separately, and both were disgusted. This is a fact. In his biography Mr. Rosing says nothing about his being an American citizen. Nor has he in any of his speeches, though his newspaper supporters claim for him votes on no other than nationality grounds. They have not a word to say on state issues. Gov. Van Sant is in no way criticised in his management of state affairs. Not a department of the state government is criticised. It is practically admitted that there is no fault whatever to be found with this republican administration. Mr. Rosing asks for votes, not on his record, he has none; not because he is an American citizen who loves first

of all this glorious country and whose Americanism is the strongest, broadest and best plank of his political platform; nor because he can give the state any better service than Gov. Van Sant has. He has nothing to say on any of these subjects, but asks republican voters to vote for him, a democrat, because he was born in Sweden, and because several generations back his ancestors were Germans. He will find that if he has forgotten his adopted country the Swedes and Germans have not; that they are first of all American citizens and that their votes are controlled by their principles and not by a nationality straddle.

The Burmese Game of Chess.
The Burmese game seems to be rather a heavy variety of chess, the peculiarity of it being that a pawn "queens" when it strikes an imaginary diagonal line drawn from the player's left hand corner to the right hand corner in front of him—his opponent's left hand corner. The pieces are massed on the player's right hand, but the three privileged pawns—there are only three allowed to "queen"—can only "queen" when the queen has been taken. We should say here that no piece equivalent to our queen really exists in eastern chess, the most powerful piece being equivalent to our rook or castle.
In the Burmese game the privilege of translation confers no higher hand on a piece than that of "chekoy"—called queen in European equivalence by virtue of its being unique—a piece possessing scarcely more power than a pawn. The usual move of the piece called "queen" in all oriental varieties of chess is one square diagonally and it is never one of the superior pieces.—London Spectator.

DISASTROUS WRECK
ON THE N. P. AGAIN

Mr. and Mrs. F. W. Dickhouse, of Brainerd, Were in the Wreck Near Billings, Mont.
TWO DEAD AND SIX INJURED.
Two Passengers Meet on the Main Line and Trains are Horribly Demolished.

The trains from the west, both No. 6 and No. 12, were late today and after they arrived the cause of the delay was learned. Mr. and Mrs. F. W. Dickhouse came in on No. 5 from the west and they gave a representative of the DISPATCH an accurate account of a wreck which occurred near Billings Saturday. Mr. and Mrs. Dickhouse were returning from a trip to the coast and were on one of the trains that was in the wreck. The trains came together in a head-on collision and two men were killed and six injured. The point where the collision occurred is on a bend of the road about two miles east of a siding, where the two trains would have passed had they both been running on time. The dead are A. J. Campbell, a fireman, and Mail Clerk Lundwall. Mr. and Mrs. Dickhouse were badly shaken up but were not injured.

"It was almost a miracle. Burdock Blood Bitters cured me of a terrible breaking out all over the body, I am very grateful." Miss Julia Filbridge, West Cornwell, Conn.

MISSION AT ST. FRANCIS CLOSSES.

Services Yesterday were Very Largely Attended and Eloquent Sermons Were Listened to
A thousand people took their seats at St. Francis church last night. This is a big statement, but it is nevertheless true. Seldom ever has the edifice been crowded as it was last night. The morning service at 10:30 o'clock was also largely attended. Rev. Father Hayden preached an eloquent and scholarly sermon at the morning service, on the "Holy Eucharist."
Last night marked the close of the mission which has been held in this city the past week, one of the most successful series of services that has ever been held here, resulting in untold good. Everywhere and on every hand throughout the city the sermons of eloquent Father Roberts were discussed.
Last night Rev. Father Simon preached the closing sermon on "Heaven" and it was an eloquent and scholarly effort. He has also delivered one or two eloquent sermons before this week and his hearers were very much delighted.

Republican City Convention.

A republican City convention for the city of Brainerd, in the county of Crow Wing, Minnesota, will be held at the county court house, on Fourth street north, in said city, on Wednesday, the 23d day of October, 1902, at 8 o'clock p. m., to place in nomination the following candidates: Mayor, Treasurer, Assessor, Municipal Judge, and Special Municipal Judge.
A primary election in each ward in said city, to elect delegates to said city convention will be held on the 21st day of October, 1902, at 7:30 o'clock p. m., and the polls will be held open at least one hour. Each ward will be allowed in said city convention, the following number of delegates, based on the vote in 1900 for Samuel R. Van Sant, for governor, one for each 25 votes or major fraction thereof:
First Ward.....5
Second Ward.....10
Third Ward.....7
Fourth Ward.....4
Fifth Ward.....6
Total.....32
At said primaries candidates will be selected for two Aldermen from each ward and members of the Board of Education as follows: First Ward, one member for the full term to succeed J. H. Dickinson; Second Ward, one member for the full term to succeed J. C. Congdon, and one member for the unexpired term to succeed Geo. A. Keene; Third Ward, one member for the full term to succeed Daniel Holliday; Fifth Ward one member for the full term to succeed Mons Mahlum.

WHY "BILLY" RESIGNED.

He Claims That All This Talk About His Being Reappointed is All Bosh.
There has been some little talk on the streets since the resignation of Chief of Police Nelson that the reason that the mayor did not appoint a chief was that the place was going to be "kept open" for Mr. Nelson in case he fails of election as sheriff. As this report was circulated for the evident purpose of injuring Mr. Nelson's candidacy, a DISPATCH reporter today sought out the mayor and asked him if there was any truth in it. Said his honor:
"There is absolutely no truth or foundation whatever for such a report. Mr. Nelson was an excellent officer, but there is plenty of other good material available. Why, Mr. Nelson, himself will tell you I told him that if he voluntarily resigned the position he could not expect to be appointed again in case of his defeat. It would be manifestly unfair to other aspirants for the position. In justice to Mr. Nelson I should say, however, that he told me then, and again when he handed me his resignation, that he did not wish me to consider him an applicant for the position in case of his defeat and my re-election, as he was tired of police duty, and had something else in view. Our intercourse was at all times of the friendliest and most confidential character, and he certainly gave me to understand, in the plainest terms possible, that he did not want the position any longer.
I have designated Officer Derocher as acting chief of police and will appoint an additional patrolman for the remainder of my term. If I appointed a chief of police at this time who was not already on the force, he would of course be obliged to leave his present employment and take his chances on my re-election, and I don't want to ask any man to do that. In case of my election, however, I shall appoint a first class man and I shall try to select a man who will give general satisfaction."
Mr. Nelson was also interviewed on the matter. "Billy" smiled when asked if the position of chief of police was to be "kept open" for him and said:
"Why, I told the mayor that I didn't want it again. He had treated me so kindly that I told him I would relieve him from any embarrassment as far as I am concerned in selecting a chief in case of his re-election as mayor. Besides I have held the office for three years and I honestly don't want it any longer. I am getting tired of it and I really think I ought to do better for myself. However, I may be the next sheriff of Crow Wing county, you know."

Do Not Sleep on Your Left Side.
When a patient complains of a bad taste in his mouth every morning on waking up, says a physician, the first question I ask him is as to the position he assumes when going to sleep. An immense number of people sleep on the left side, and this is the most common cause of the unpleasant taste which is generally attributed to dyspepsia. If a meal has been taken within two or three hours of going to bed, to sleep on the left side is to give the stomach a task which is difficult in the extreme to perform. The student of anatomy knows that all food enters and leaves the stomach on the right side, and hence sleeping on the left side soon after eating involves a sort of pumping operation which is anything but conducive to sound repose.
The action of the heart is also interfered with considerably, and the lungs are unduly compressed. It is probable that lying on the back is the most natural position, but few men can rest easily so, and hence it is best to cultivate the habit of sleeping on the right side. It is very largely a matter of habit, and the sooner it is acquired the better for the sleeper and the worse for the physician.

The Bucket Shop.

The name bucket shop is said to have originated in Chicago when legitimate brokers would not handle an order for less than 5,000 bushels, and a lot of places sprang up where men of small means could speculate on a trading capital as small as a dollar, and these speculators were spoken of contemptuously as buying and selling wheat by the bucket full. The term was eventually applied to all brokerage in stocks and grain when the amounts dealt in were smaller than legitimate dealers or brokers would handle and more particularly to places where there were really no legitimate transactions, but where the proprietor and customer simply bet on the market, the proprietor allowing the customer to take either end of the bet in consideration of a commission, which in reality is his percentage in the game.

DISASTROUS FIRE

VISITED AITKIN

Some of the Largest Business Houses of the City are Gutted, Loss Being Total.

A \$150,000 CONFLAGRATION.

The Store of G. W. Knox With \$50,000 Worth of Goods was Completely Destroyed.

Yesterday morning about 2 o'clock a fire that resulted in the destruction of some \$150,000 worth of property occurred at Aitkin. The fire started in the rear of Ady Bros. store which is on the main thoroughfare of the city. The fire department was called out and did good work, but the fire had gotten start of the fighters and soon spread to other buildings. G. W. Knox's store was the first to be enveloped in flames after the Ady building had burned for awhile. The Knox store was completely gutted with all its contents and it is estimated that the loss will reach \$50,000. He carried only \$25,000 insurance. The loss to Ady Bros. store and stock was about \$15,000 and they had but \$500 insurance. Then the flames swept down the line and the following places of business were burned to the ground, nothing but some of the office contents being saved: McQuillan Land Co., Kast Bros. barber shop and the Aitkin Land company. The large store of W. Potter & Co., had a very close call.

DEERING-MOORE.

Mr. Walter Deering and Miss Gertrude Moore United in Marriage at Crookston Saturday Evening.

On Saturday evening Mr. Walter Deering, resident manager of the Brainerd Opera House, was united in marriage to Miss Gertrude Moore at Crookston. The wedding was a private affair, none but a few intimate friends of the couple being present, and occurred at the home of the Rev. Mr. McKenzie who performed the marriage ceremony. Mr. and Mrs. Deering will make their home here and their many friends extend congratulations.

WEDDING ANNIVERSARY TONIGHT

Mr. and Mrs. James A. Martin will Celebrate Their Fiftieth Anniversary This Evening at their Home

This evening there will be a happy gathering at the home of Mr. and Mrs. J. A. Martin when they will celebrate their fiftieth wedding anniversary, or golden wedding. The members of their family and their children's families will be together and it will be a novel event. This afternoon Mr. and Mrs. Martin were taken by surprise at the arrival of S. R. Martin in the city from Warren county, Pennsylvania to be present at the event. He is J. A. Martin's youngest brother. Mr. and Mrs. John McGlogan, of St. Paul, relatives, also arrived in the city this afternoon.

BRAINERD WON IN A SNAPPY GAME

First Game of Foot Ball of the Season on Saturday Proved a Peacherine.

THE SCORE RESULTED 20 TO 0.

Little Falls Men Were Much Heavier But Brainerd Played Better Ball.

Brainerd 20; Little Falls 0.

The first game of foot ball was played in this city on Saturday afternoon between the high school eleven of Brainerd and Little Falls, and the latter went down to defeat, when in reality they went on the field in all confidence that the game was as good as won. From the general appearance of the lineup of the two teams it might be said that Little Falls had all the show in the world. Their men are heavier and they put up a very beefy lineup, but they have not the snap the local eleven has. Everett Doran has been coaching the locals and to him should be given a good deal of credit for the work of the boys. The boys put up a snappy game throughout and the manner in which they went around the ends and through the line of the Little Falls bunch was a caution.

The game was played in twenty and twenty-five minute halves, the first half being twenty minutes. Little Falls won the toss up and chose the south goal. Brainerd kicked off to the Little Falls fifteen yard line. Little Falls failed to make the necessary gain and they lost the ball to Brainerd.

Here is where Brainerd showed its strength and they all did some star playing. It did not take but a minute or so to make the first touchdown once they had the ball. The touchdown was made on the second down, but Brainerd failed to kick the goal. Little Falls then kicked off to Brainerd and White got the ball and went through the line for a four yard gain. O'Brien bucked the line for a three yard gain and the star play of the whole game came when by a series of maneuvers Fred Sanborn playing one of the ends got the ball, cleared the whole Little Falls bunch and ran eighty yards for a touchdown putting the ball squarely between the two goals. Little Falls then kicked off to Brainerd and the ball was declared dead on Little Falls twenty yard line at the end of the first half. Score 10 to 0.

In the second half Brainerd had the ball and choose the south goal to defend. Little Falls kicked off to Boyle who advanced the ball fifteen yards, and by a series of end plays Bean soon got around the end and made a forty yard run for another one of those things. Little Falls kicked off to Brainerd again and the latter advanced the ball fifteen yards and lost it on downs. Little Falls advanced the ball to the ten yard line when it was fumbled. Brainerd then made a series of good plays bucking the line and Allen was finally pushed over for the fourth and last touchdown of the game. Little Falls then fought like tigers for a touchdown but they failed to make it and when time was called the score was 20 to 0.

Everett Doran was timekeeper, C. Burton, of Little Falls, umpire and Roy Cross referee.

Mrs. Parker's Brother-in-Law Dead.

The following regarding the death of John Brown, who died at Owen Sound, Ont., is taken from one of the papers of that place. Mr. Brown was a brother-in-law of Mrs. James Parker of Northeast Brainerd:

"Mr. John Brown a highly respected resident of Brooke died at his suburban residence on Saturday morning at the age of 66. Mr. Brown had been ailing all summer though not confined to bed. On Thursday he was over town, and death was not thought of. He leaves a wife and an adopted daughter who resides in the west. Deceased was a man of splendid character and a valued member of St. Thomas' church. The funeral took place to Greenwood cemetery on Monday. Rev. Mr. Franklin conducted impressive services at both home and graveside."

MUSIC AND DRAMA.

COMING ATTRACTIONS.

October 8—Haverly's Minstrels.
October 10—A Poor Relation.
October 13—The Little Outcast.

Haverly's Minstrels.

Haverly's Mastodon Minstrels is headed by that famous minstrel comedian George Wilson, will be the attraction at the Brainerd Opera House Wednesday evening. Mr. Wilson's name is too well established to require anything further than the mention of his presence. Assisting Mr. Wilson on the ends are such capable comedians as jolly Bert Swor, Perron Somers, Jake Young, John Swor, Frank Young. The first part setting represents a night in Venice, showing the gondoliers carrying the serenaders through the beautiful waters of ancient Venice.

In conjunction with a chorus of rich voices, are such singers as Mr. Frank Combs, the Letter Carrier's famous lyric tenor; George Morgan, the world's greatest contralto, direct from Moore & Burgess minstrels, St. James Hall, London, England; John J. Roland, basso profundo, late with the Bostonians; Master Charles Richards, boy baritone, and half a hundred other white celebrities. With them also is the famous Carl Dammann troupe from the Hammerstein Roof Garden New York city.

Seats on sale to-morrow at 10 a. m. at Dunn's Drug store.

"A POOR RELATION" COMING.

Not the least of the many excellent bookings at the Brainerd Opera House is Sol Smith Russell's grand play, "A Poor Relation," which will open for a one night engagement next Friday evening, Oct. 10th.

Mr. Horace Lewis, a comedian who is very popular throughout the eastern cities, especially in Boston, has been secured to appear in Mr. Russell's famous part of "Noah Vale". In this, it is said, Mr. Lewis has made a tremendous success and

the company has been greeted with a succession of crowded houses wherever they have appeared so far the present season. All the scenery, property and a number of Mr. Russell's former supporting company, have been retained and will be seen with this attraction.

"A Poor Relation" is more an idyl of true love than a drama. It is beautiful and perfectly natural in conception, simple in construction and pleasing in denouement. These qualities, when coupled with faultless presentation by a capable company, make it a play that everybody should see.

BLAZE AT SWIFT'S OFFICE.

Fire Department was Called Out on Saturday Evening About 7:30 O'clock —Damage Was Not Large.

Saturday night there was quite a little blaze at the office of Swift & Co. in this city, which gutted the building which is a small frame structure and upon which but little value can be placed. There is however much value attached to the records in the office, and an effort was made to save these which was successful.

The bookkeeper was at work in the office when the fire started and the lamp used exploded. In trying to throw it out doors he distributed the kerosene about the floor and paper in such a manner as to give the flames a bigger start. Most of the records of the office were in the safe and are uninjured.

REMAINS BROUGHT HERE.

Body of George O'Donnell, Who was Killed at Virginia City, Brought to Brainerd for Burial.

The remains of George O'Donnell the railroad man who was killed at Virginia City on the iron range Saturday morning reached Brainerd yesterday noon in charge of the yardmaster. The deceased was a brother of Mrs. T. E. Cahan of this city. On Saturday when the sad news was received it was not known how the accident which resulted in his death happened but it was learned yesterday that he was switching in the yards of the Eastern Minnesota Ry. at that place and somehow fell in front of the engine. He fell across the track and the engine passed over his body, which was completely cut in two and death must have been instantaneous. Both hands were cut off and his face and other parts of his body were horribly mutilated.

The relatives of the young man, many of whom live at Jamestown, N. D., arrived in the city yesterday and today to attend the funeral services which will be held at St. Francis church tomorrow morning. Interment will be made in Evergreen cemetery.

OUT ON PAROLE.

Jacob Sylvester and Albert Plummer, who Sandbagged A. Olson Years Ago, are Released.

The presence of Jacob Sylvester and Albert Plummer in the city will recall to memory the incidents surrounding the holdup and robbery in which A. Olson, the Sixth St. tailor, was a conspicuous figure. He was held up and robbed by the two young men and beaten almost into insensibility. The boys were arrested, convicted and sentenced to eight years in the penitentiary at Stillwater. A year ago the relatives of the young men appeared before the pardon board in St. Paul and asked that they be released. At the time the board took the matter up and after investigation decided to let the young men out on parole. They reached the city Saturday and will remain here. Sylvester has already hired out as cook for J. A. Long, superintendent of the Cross Lake Logging company, and Plummer expects to find a job and go to work at once.

ANXIOUS TO WALK OUT

CHICAGO TEAMSTERS READY TO
STRIKE ON ALL THE EX-
PRESS COMPANIES.

INSIST ON THEIR DEMANDS

Employers Absolutely Refuse to Re-
cognize the Union or Pay the Scale
Demanded by the Men—Latter Vote
to Strike at Once but the Joint
Council Prevails Upon Them to
Await Further Negotiations.

Chicago, Oct. 6.—Unless the plead-
ings of the teamsters' joint council
shall be headed 1,000 members of the
Express Drivers' union will go on
strike. The members of the union, by
a practically unanimous vote, de-
cided to call a strike and their action
was reported to the joint council for
endorsement. The council refused to
sanction an immediate strike and
asked the men to postpone action for
ten days, during which time further
effort might be made to bring about a
peaceable solution of the trouble.
The strike which was voted is aimed
at all the express companies doing
business in Chicago. The companies
refuse to recognize the union or to
pay the scale demanded by the men.
The men on the other hand insist
that their demands shall be met.
Neither side appears to be willing to
recede from the position it has taken.
Unless the pleadings of the joint
council shall be headed every team-
ster employed by express companies
in Chicago will quit work.

At a conference between the team-
sters' joint council and the executive
committee of the teamsters it was de-
cided to abide by the decision of the
council and another effort will be
made to settle the difficulty peaceably.
The men were anxious to go on strike
in the morning, but after a good deal
of arguing they were prevailed upon to
withhold the order to strike.

OFFER OF COAL LANDS.

Wealthy Woman Places Them at the
Disposal of the President.

New York, Oct. 6.—Another offer of
coal lands has been made to President
Roosevelt to relieve a possible coal
famine. Mrs. Johanna C. Samuels
formerly of Nashville, Tenn., and
Washington, D. C., but who has been
in New York for several months or-
ganizing a railroad and other projects,
has written to President Roosevelt
offering him a tract of mining land
in Kentucky, to be mined by the gov-
ernment without compensation to the
donor, during the continuance of the
strike. Mrs. Samuels said to a re-
porter:

"I am making the offer simply be-
cause the property is idle. It is no
expense to me at the present time
and I would be at no loss if a quan-
tity of coal is mined. I do not ask one
cent from the government or any fa-
vor. I will leave the arrangements
of all details entirely to the president
and let him do as he sees fit."

MAYOR TAKES A HAND.

Inform New Orleans Street Railway
Company Cars Must Run.

New Orleans, Oct. 6.—Mayor Cap-
deville has notified the street railway
owners that cars must be in operation
on all the lines before noon, whether
the strike be settled or not. The
penalty is not stated in the letter of
notification, but it is understood that
an attack may be made on the fran-
chise of the company. The company
advertised for men at 20 cents an
hour, 2 cents more that the strikers
were getting. It is asserted by the
owners that cars will run during the
day. At the first show of violence
the police and possibly the militia
will be called out. All the telephone
wires of the street car company's pri-
vate system have been cut.

IN AID OF STRIKING MINERS.

Federation of Labor May Assess Its
Members Ten Cents a Week.

Cleveland, O., Oct. 6.—The mem-
bers of the Federation of Labor
who meet in Cambridge, O., on Tues-
day, will introduce a resolution ask-
ing the American Federation of Labor
to assess its 1,500,000 members 10
cents a week for the benefit of the
striking coal miners. The resolution
will be strongly urged. If the matter
is acted upon a sum of \$150,000 week-
ly will be raised. The United Trades
and Labor council of Cleveland has
contributed \$500 per week to the
strike fund of the anthracite miners.

ALABAMA STRIKE SPREADING.

Over Four Thousand Coal Miners Ex-
pected to Leave Work.

Birmingham, Ala., Oct. 6.—If the
orders of the officials of the United
Mine Workers are obeyed, 4,200 min-
ers in the employ of the Tennessee
Coal, Iron and Railroad company will
be idle at once. The strike inaugur-
ated several days ago on account of
the failure of the company to deduct
\$1 from the miners' wages without a
written consent from each miner
has extended to Blocton and Blue
Creek fields.

WRECK TWENTY CARS.

Geneva Street Car Strikers Do Con-
siderable Damage.

Geneva, Oct. 6.—A meeting of the
striking employees of the street car
lines led to serious disturbances.
Twenty cars were wrecked and the
police had difficulty in restoring or-
der.

Many arrests were made. The pres-
ent strike started last Sunday.

Killed in a Running Fight.

Gering, Neb., Oct. 6.—Clarence Ful-
lerton, a farmer, was shot and killed
by Walter Houston, in a running fight
in which Fullerton was the pursuer.
Stories circulated by Houston about
Fullerton and his housekeeper, it is
said, caused the fight.

REIGN OF TERROR OVER.

Roving Insane Man Shot and Killed
Near Wausauke, Wis.

Marinette, Wis., Oct. 6.—The insane
man who is supposed to have shot and
killed John Koucha, a St. Paul fire-
man, who was fatally wounded in his
cab last week while the train was
speeding along at twenty-five miles
an hour, was killed during the day
twenty-five miles west of Wausauke.
Otto Wenzel, a cook in Charles May's
lumber camp, shot him as he was
coming toward the camp and he died
an hour later. For a week past the
entire country around Amberg, Pem-
bline and Dunbar has been in a state
of alarm over the presence of the in-
sane man, whose identity is yet un-
known, but whose name is supposed to
be Raymond. The hunters left the
woods, men in lumber camps kept
their rifles loaded waiting for him,
and on all the trains people were
warned not to go on the platforms be-
tween Amberg and Pembline. Satur-
day morning Wenzel saw the insane
man coming toward the camp. He
warned him to stop, but the fellow
never heeded him. He fired a shot
over his head, but he kept right on
and the next shot struck him over the
heart.

GUILTY OF BRIBERY.

Banker Snyder Convicted and Sen-
tenced at St. Louis.

St. Louis, Oct. 6.—Robert McClure
Snyder, banker and promoter, was
convicted of bribery in the criminal
court and was sentenced to five years'
imprisonment in the state peniten-
tiary after the jury had considered for
fifty minutes its verdict on the case
which had occupied an entire week in
presentation. The jurors had retired
after almost four hours of argument
by the attorneys for the defense and
the state.

No bondsmen were present when
Snyder's conviction was announced,
the defense having apparently been
confident that its testimony concern-
ing Snyder's residence in Kansas City
would convince the jury that he was
entitled to the benefits of the statute
of limitation. The incarceration of
the convicted man seemed to be im-
minent when two of his attorneys,
Judge Henry S. Priest and Morton
Jourdan, signed his appeal bond for
\$25,000, securing his release. Motions
for appeal and a new trial well be
filed.

MR. REITZ ARRIVES.

Former Secretary of State of the
Transvaal in New York.

New York, Oct. 6.—A committee of
Boer sympathizers, including repre-
sentatives of the Irish-American so-
cieties, welcomed Francis William
Reitz, formerly secretary of state of
the Transvaal, who arrived with his
wife on the Holland-American steam-
ship Statendam, from Boulogne-Sur-
Mer.

"While not here to agitate for the
reopening of the war," said Reitz, "I
have in view the twofold object of
duty to my countrymen and remunera-
tion to myself. The Boers have been
tricked into forsaking their colonial
allies by oral promises of Kitchener
and Milner that they would endeavor
to obtain at the time of the corona-
tion amnesty for all rebels."

WITH A RUSTY HATCHET.

Two Convicts Chop Off Each Other's
Fingers to Escape Heavy Work.

Chester, Ill., Oct. 6.—Rather than
perform the heavy work assigned to
them, John Reagdon and C. Roscoe,
two convicts in the Southern Illinois
penitentiary at this place, with a
rusty hatchet cut off three fingers
from the right hand of each, thereby
incapacitating themselves from fur-
ther work. Both men claim to be in
poor health.

After they were discovered with
their mutilated, bleeding hands, they
were sent to the prison surgeon, who
bound up their wounds. Then the
two men were taken out into the
prison yard and compelled to stand
on a block the remainder of the day.

DRANK WOOD ALCOHOL.

Young New York Woman Kills Her-
self in Minneapolis.

Minneapolis, Oct. 6.—Rather than
face her parents, whom she felt that
she had disgraced, Pauline Brown,
the daughter of wealthy parents in
New York, took her own life with
wood alcohol, dying in an ambulance
on the way to St. Barnabas hospital.
She was found in her room on North
Eleventh street in an unconscious
condition by friends, who summoned
the ambulance. A half emptied bot-
tle of wood alcohol on the dresser
told the story of her deed. She had
swallowed more than enough of the
poison to insure her death.

SHOOT A TENNESSEAN.

Iowa Man Resents Slurs on His Fight-
ing Qualities.

Knoxville, Tenn., Oct. 6.—John
Swartzell, a well known business man
of this city, was killed as the result
of a quarrel with some traveling men.
One of the crowd, a well dressed
stranger, grew angry at a discussion
which Swartzell was leading as to the
fighting qualities of Iowans, and with
the exclamation, "I'm an Iowan and
will show you I'm game!" shot Swart-
zell twice. He then escaped and has
not been found.

ON THE LAND GRANT SYSTEM

South Australian Government to Con-
struct a New Railway.

Melbourne, Victoria, Oct. 6.—The
South Australian government has in-
troduced a bill for the construction of
a railroad from Adelaide to Port Dar-
win on the land grant system. Three
months after the bill is passed tend-
ers are to be invited from Europe and
America. Those persons sending in
tenders are designate the area they
require. The bill limits such area to
75,000 acres for a mile.

Fatal Blow on the Jaw.

Grand Rapids, Mich., Oct. 6.—Will-
iam D. Barringer, a cooper, was killed
by Thomas A. Stewart, a negro bar-
ber, on South Market street. Barrin-
ger is alleged to have made an in-
sulting remark to Stewart's wife and
her husband felled Barringer with a
blow on the jaw from which he died
almost instantly. Stewart is in jail.

WANT MORE PAY

SUBJECT UNDER DISCUSSION
BY ENGINEERS IN SE-
CRET SESSION.

DEMAND WILL BE GENERAL

Although but Twelve Railroads Were

Represented at the Meeting the
Move for Increased Wages Will In-
clude the Engineers of All Lines in
the Country—Raise of Ten Per Cent
Likely to Be Asked.

Chicago, Oct. 6.—The secret ses-
sion of the Brotherhood of Locomotive
Engineers at the Sherman House has
ended and the representatives of the
order left town immediately. Grand
Chief Engineer P. M. Arthur declined
to discuss the object of the meeting,
but it was learned that the subject un-
der discussion was a demand for an in-
crease in wages.

The engineers agreed in the recent
national convention in Norfolk, Va.,
that they would make a formal de-
mand and it was in line with this de-
cision that the Chicago meeting was
held.

The engineers employed on twelve
railroads were represented. The en-
gineers assert that the tonnage of
freight trains has become so much
heavier that there is no comparison
with the work they had to do when
the schedule now in force was adopt-
ed. Engines are larger and the hours
the men are required to remain on
duty makes theirs a trying task, they
say. They declare they are entitled to
at least a 10 per cent raise.

The demands of the engineers is
not to be confined to the few roads
represented but is general.

NO ATTEMPT TO RUN CARS.

Strikers Masters of the Situation at
New Orleans.

New Orleans, Oct. 6.—The striking
street car men, who left their posts last
Sunday morning in an attempt to se-
cure higher wages and a shorter day,
apparently are masters of the situa-
tion here as no attempt had been
made up to 10 o'clock to start cars on
any of the lines.

Considerable destruction of property
of the New Orleans Railway com-
pany was reported as having occurred
during the night. It is probably the
result of the statement of the com-
pany that it would attempt to run its
cars. Feed wires were cut, poles
chopped an other measures taken to
make it difficult for the company to
operate its service.

The morning papers contain adver-
tisements for 1,000 motormen and con-
ductors. They stated that only resi-
dents of New Orleans need apply. It
is not considered probable that there
will be numerous responses to these
advertisements. Telegrams from oth-
er cities say that the company was
seeking outside labor but the company
is not willing to admit this and refers
to its advertisement to show that it
desires only home labor. The strik-
ers, however, are suspicious and there
are pickets at all the railway stations
in anticipation of the arrival of foreign
laborers.

Efforts are being made by disinter-
ested persons to bring the representa-
tives of the contending factions to-
gether. Hope has not been abandoned
of an amicable settlement. Until the
company attempts to operate cars
other than those carrying the mail
there is unlikely to be serious dis-
turbance of the peace.

COMPLICATIONS IN COLOMBIA.

Admiral Casey Refuses to Allow
Troops to Travel by Rail.

Panama, Colombia, Oct. 6.—The ar-
rival of Rear Admiral Casey on board
the battleship Wisconsin has changed
the situation. It now appears that
the instructions brought by Rear Ad-
miral Casey may result in serious
complications.

Last Friday General Salazar re-
ceived a communication from Acting
United States Consul Ehrman saying
that Admiral Casey would not permit
the transportation of armed or un-
armed military employees of the gov-
ernment or of war material of any
kind by the railroad. At a conference
with Admiral Casey General Salazar
said that the United States, accord-
ing to the convention of 1846, had
contracted two inseparable obliga-
tions, namely, to guarantee positively
and efficaciously free transit across
the isthmus, and to guarantee in the
same manner the rights of sovereignty
and property which Colombia pos-
sesses over the Isthmian territory.

The governor said that if the Co-
lombian government is not allowed
to transport its troops and war ma-
terial by rail over the isthmus, not only
does the United States not fulfill its
second obligation, but it attacks Co-
lombia's rights of sovereignty and
violates all principles of morality and
justice; that he, as the representative
of the nation and government, could
not accept such an interpretation of
the convention and against which he
must energetically protest.

To General Salazar Admiral Casey
answered that he was complying with
instructions received. He said he re-
gretted he had been compelled to take
these measures, but he considered them
necessary to the protection of
free transit across the isthmus. Ad-
miral Casey also said that would con-
sult with Washington and see what
could be done in the matter.

FUNERAL OF EMILE ZOLA.

Noted French Author Buried With Im-
pressive Ceremonies.

Paris, Oct. 6.—The remains of
Emile Zola were laid at rest during
the day with simple but impressive
ceremonies. It was such a funeral as
Zola himself would have wished, with-
out pomp, but with the serried ranks
of thousands of workmen, many
accompanied by their wives, sorrow-
fully marching behind his coffin.
Municipal guards, mounted and on
foot, lined the route, but except for a
company of infantry that rendered
military honors to the body as it was
carried from the house to the hearse,
they were as guardians of order and
not as participants in the ceremony.
Former Captain Dreyfus marched in
the funeral cortege, according to the
authority of the prefect of police, but
he passed completely unnoticed by
the crowd. A little distance behind
him came Mme. Dreyfus, accom-
panied by her father, Dreyfus sent
a handsome wreath, which was placed
beside the coffin.
